

## Installing Your Sliding Glass Pet Door Conversion System

### Step 1:

Remove all 4 glass stops using a putty knife or similar tool. Insert the putty knife into the seam between the stop and door frame. Gently tap and pull stop out of its slot then completely remove them. Set these aside in a safe place. You will reinstall them at the end of the installation.

## Step 2:

Separate Glazing Tape Between the Glass and Frame. Using a putty knife or razor knife to separate the glass from the frame. Insert the knife under the frame on the back side of the door (opposite the side where the glass stops go). Slide knife around the entire frame until the glass unit is free. Be careful not to drop the glass unit as you are freeing it from the from.

## Step 3:

Remove Glass Unit from Door Frame. Carefully tip the top of the glass unit out of the frame towards your body. Then lift out the glass unit. Place the glass unit in a safe place to leave with the homeowner or where it can easily be disposed.

## Step 4:

Remove Existing (Old) Glazing Tape from Door Frame. Using a razor knife or putty knife, carefully scrape away the old glazing tape to clean up the frame. Be sure not to cut or damage the edges and outside of the frame.

## Step 5:

Apply Glazing Tape to the Door Frame. Apply glazing tape along the inside of the door frame where the old tape used to be located. Ensure that the tape goes around the entire frame.

## Step 6:

Insert Pet Door Unit in the Door Frame. First ensure that your glass shims do not cover the stops for the glass stops. Then, carefully insert the bottom of the pet door unit. Once the bottom is fully inserted, work the pet door unit into the frame, applying pressure as you move up the frame. Push the pet door unit in snugly until flush on all sides.

## Step 7:

Replace All 4 Glass Stops. Using a wood or plastic, soft mallet, gently tap the glass stops back into place. Make sure you do the longest ones first. All 4 piece should fit back perfectly as before.

## Step 8:

Replace the door sash and you are done! Now clean up the door and you're ready to greet your happy customer!
