

# Pet Door Option for Sliding Windows

---

[petdoorproducts.com/pet-door-option-for-sliding-windows](https://petdoorproducts.com/pet-door-option-for-sliding-windows)

The Pet Door Products vertical sliding window pet door provides the world's most durable energy-efficient cat door for sliding window. No tools are required to install this unique window pet door. That's because no construction modification of the window frame or sash is necessary. That makes it ideal for rental properties and vacation homes. Just choose your frame color, pet door size, height adjustments as needed, and accessories.

## Sliding Window Pet Door Features

---

- The cat door window insert fits any width of windows with a sliding vertical sash from 22" to 43" and a track at least 1" wide.
- The insert comes in 4 sizes, from cat size to large dog breed size.
- Choose from 3 beautiful frame colors (satin, white, and bronze (very dark brown))
- Our sliding window pet door can be installed or removed in just a few seconds.
- A special spring-loaded mounting mechanism for installation requires no tools.

## Sliding Window Pet Door Installation

---

Our innovative sliding window conversion system is designed to incorporate your new pet access door seamlessly into your existing sliding glass window. Our pet door for sash window designs slips into place in seconds and immediately gives your pet the incomparable gift of freedom! Your furry friend can begin to know the joy of independence and abundant outdoor fun while having full indoor access to food and water and all the comforts of home.

## Endura Flap

---

The famous pet door cover provides superior insulation to prevent home heating and cooling loss through the pet door. The high-grade polymer Endura Flap pet door cover has magnetic seals that withstand strong winds to help maintain home comfort during external temperatures of -40 and 110 degrees Fahrenheit. Use our draft stopper and pet door weatherstripping for additional insulation and extreme weather protection.
