

July Special: Avoid the Middleman Markup with Custom Built Glass Door Doggie Doors

petdoorproducts.com/july-special-avoid-the-middleman-markup-with-custom-built-glass-door-doggie-doors

As we welcome the hot summer months, pet owners face the exciting yet challenging task of giving their furry friends the freedom they need while keeping them safe indoors. The solution is more straightforward than you think – a custom-built doggie door for your glass sliding door. This July, Pet Door Products is proud to offer an exclusive special, letting you avoid those pesky middleman mark-ups. Say ‘hello’ to affordable, high-quality doggie doors for your sliding glass doors.

Say Yes to Freedom: The Functionality of Doggie Doors

Doggie doors, particularly those made for sliding glass doors, are designed to grant your four-legged companion the independence they crave. With a dedicated doggie door flap right on your glass door, your pet can venture into the garden or come back indoors whenever they please. Say goodbye to the constant in-and-out routine that just doesn’t work when you are busy at work or resting after a long day.

Empowering Your Pets: The Utility of Doggie Doors

We all love some well-deserved independence, and our four-legged companions are no different. Doggie doors, especially those made for sliding glass doors, are designed to give your pets the freedom they crave. With a dedicated doggie door flap on your glass door, your pet can have their adventurous outdoor rendezvous or snuggle up inside as they please. No more distractions or interrupted leisure time opening and closing the door for their excursions.

Built to Last: High-Quality Doggie Door Glass Door

Quality is a non-negotiable factor when it comes to pet products. This is no different for doggie doors. At Pet Door Products, our [doggie doors for glass doors](#) are built using durable, high-grade vinyl that guarantees longevity. Additionally, our energy-efficient design allows you to leave the pet door open without worrying about skyrocketing energy bills.

Innovation at its Best: Doggie Door Sliding Glass Door Insert

The hallmark of our pet door solution is our innovative sliding glass door insert. With this feature, you can simply replace your existing vinyl sliding glass door unit with one that includes the pet door. Our unique pet door conversion system ensures that you can now have a sleek and functional doggie door without altering the aesthetic appeal of your home.

The Pet Door Products Advantage: No Middleman Mark-up

As manufacturers, not dealers, we cut out the middleman, thereby making sure our customers enjoy unparalleled savings. This July, we're taking that advantage one step further with a special deal on our custom-built glass door doggie doors. Enjoy significant savings without compromising on quality and functionality for your beloved furry friend.

Pet Door Products – Your Partner in Pet Care

With our pet doors, we don't just provide a product; we offer a solution. A solution that empowers your pet, keeps them safe, and offers you peace of mind. We strive to create products that enhance the bond between you and your pet, adding joy and convenience to your lives.
